

Medical QiGong Therapy (MQT) is an ancient method of maintaining health and promoting longevity as well as preventing and treating illness. It is a form of Chinese energetic medicine.

The MQT Therapist uses energetic healing protocols on the client to purge toxic emotions from the body's tissues, eliminate energetic stagnation, as well as strengthen and balance the internal organs.

As an experienced Healer, I understand the relationship between the physical body and the subtle bodies as well as the interrelationship between elements, organs, meridians, chakras, disease patterns as well as the possibilities of Quantum Mechanics and Matrix Healing.

The clients wellbeing is always the guiding force.

Medical Qi Gong Healing Therapy

On a recent Oprah show, Dr. Mehmet Oz, NY surgeon and health care advocate, sited energy medicine as the medicine of the future. "We're beginning now to understand things that we know in our hearts are true but we could never measure. As we get better at understanding how little we know about the body, we begin to realize that the next big frontier in medicine is energy medicine."

If you experience pain, discomfort or low energy levels in your body, it is a sign that your energy is not flowing. This is called stagnation and needs to be moved!

Disease is treated by correcting the yin and yang imbalance. From this perspective, the patient's symptoms are not necessarily seen as the cause of the disease but rather as a manifestation of the imbalance. Each patient may have a different imbalance causing what outwardly looks like the disease. Once **the therapist forms a cohesive picture** of the pattern of disharmony, she can **formulate a treatment plan to restore balance** of the excess or deficiency that led to the disease.

The client has to take control of his healing process by practicing simple medical qigong exercises at home. These are simple movements and/or meditations.

The goal of Energetic Medicine is to correct these bio-energetic imbalances and blockages.

MQT has been used in **QiGong hospitals**, and **clinics worldwide**, treating dozens of difficult and stubborn conditions that do not respond well to other types of traditional medicine.

life is valuable

Blockages occur in the physical or subtle bodies where there are inherent weaknesses. Anywhere you experience pain, you are sure to have a blockage!

The goal of all healing is not to just treat symptoms but rather to determine each client's particular imbalances and find the root causes.
